<p>Future (e.g. annual event; one-</p>	<p>First introduction of a thematic topic related to “child and sport</p>

off; 3-part series??) Μελλοντική δραστηριότητα (άπαξ/ συνεχιζόμενο./άλλο- προσδιορίστε)	safety" ever offered by Medical School in Greece
Any other comments Σχόλια:	The summer school topic has a great impact and interest for the general population as well. We hope that the summer school will provide a stimulus for future interdisciplinary cooperation and research in this field, with the hope that age-specific regulations by the authorities will follow, ensuring the age appropriate and safe sport participation of all children
