**EDUCATION POST-GRADUATED STUDIES DIPLOMAS**

Degree in Medicine July 1990 University of Crete (8.36, 1<sup>st</sup> of the class)

PhD January 2001 University of Crete

Board in Medical Oncology 2006

My studies in medicine were realised in the Medical Faculty of the University of Crete. I began my doctoral thesis under the supervision of Prof. O. Manousos and after his retirement under the supervision of Prof. I. Blachonikolis. After my first two years of specialisation in Internal Medicine, I served as a supernumerary Doctor of the University Hospital of Heraklion. As such, I was placed in the Department of Medical Oncology of the hospital where the conduction of the cooperative international studies of the department was assigned to me. This was my first contact with the object of clinical research. Since then this particular object constitutes one from my inquiring interests and I have dealt with all spectrum of clinical investigation (planning, concretisation, control, analysis and report). I continued working as MD of clinical studies in Medical Oncology after the expiry of my appointment with the hospital and until 2001, with a short interval. From 2001, I began my specialization in Medical Oncology, first as a resident in Hematology for 6 months and afterwards as a resident in the Medical Oncology. After examination, in December 2005 I received the title of the Medical Oncology Speciality.. During my specialization, I enjoyed a scholarship from the Hellenic Society of Medical Oncology (HESMO) and worked in the Laboratory of Germans Trias i Pujol, Universitat Autonomus de Barcelona (5/2003-12/2003) under the supervision of Professor R Rosell. Furthermore, during my specialization, I was accepted and I followed the educational program of the Masterclass in Oncology of the European School of Oncology (in year 2004) and the AACR course “Molecular Biology in Clinical Oncology” (in July 2006). I was elected as lecturer of Medical Oncology in the Faculty of Medicine, University of Crete in November 2006. I took a sabbatical year (from November 2007-November 2008) at the Dana Farber Cancer Institute (Harvard Medical School) and 21 months in the Danish Health system (01/03/14-30/11/2015 Onkologisk Afdeling, Hospitalenhed Vest, Herning, Danmark)

I participate in a wide variety of events (congresses, seminars, workshops etc) as trainee as well as instructor.
