

**PART I: General Information**

**Name:** Maria Venihaki

**Office address:** Lab. of Clinical Chemistry  
Medical School, University of Crete,  
Voutes, Heraklion, Crete,  
71003, Greece

**Email:** [venihaki@med.uoc.gr](mailto:venihaki@med.uoc.gr)

**Place of birth:** Heraklion, Crete, Greece

**Marital Status:** Married with 2 children

**Education:**

1991: Bachelor of Science in Pharmacy, School of Health Sciences, Aristotelian University of Thessaloniki

1992: Courses on Advanced Laboratory Technology, School of Medicine, University of Crete

1996: Graduate program (PhD) in Clinical Chemistry, School of Medicine, University of Crete

**Postdoctoral Training:**

1997-July 1999: Research fellow in Endocrinology, Children's Hospital, Harvard Medical School, Boston, MA

**Academic Appointment:**

1997- July 1999: Research Fellow in Pediatrics, Harvard Medical School, Boston, MA

July 1999-2002: Instructor in Pediatrics, Harvard Medical School, Boston, MA

2003- Sept 2005 Instructor in Developmental Biology, IIBEAA, Athens

Oct 2005-May 2008: Research Scientist, PD407, Laboratory of Clinical chemistry, UOC, Crete

May 2008-present: Assistant Professor in Clinical Chemistry, Medical School, University of Crete

July 2008-present: Staff member of the clinical laboratory of Clinical Chemistry, University General Hospital of Heraklion

**Professional Society Involvement:**

1997-present: Endocrine Society, Full Member

1998-present: American Neuroendocrine Society, Member

2004-present: EEMBB, Member

2010- Society of Clinical Chemistry

**Awards:**

- 1996: Ikkos Award of the Greek Endocrine Society for the best endocrine paper produced in Greece and published in an international journal.
- 2001: Mara Lieberman Travel Grant Award of the American Endocrine Society for the abstract titled: "Altered hypothalamic-pituitary-adrenal (HPA) axis regulation in tumour necrosis factor alpha (TNF $\alpha$ )-deficient mice."
- 2002: Travel Grant Award of the American Endocrine Society for the abstract titled: "A role for CRH in cutaneous wound healing."
- 2010: Award of the Greek society of Pharmacology for the best presented abstract entitled "Inhibition of the inflammatory response of activated microglia by a novel 17 spiro analog of neurosteroid dehydroepiandrosterone".

**Member in Graduate Programs:**

2007-present: Graduate program in "Cellular and Genetic Etiology, Diagnosis and Treatment of Human Disease" of the Medical School, University of Crete

2008-present: Interdepartmental Graduate Programme in the BRAIN and MIND sciences, University of Crete

2010-present: Graduate program in "Neurosciences" of the Medical School, University of Crete

**PART II:****Research Interests:**

My research focuses on the role of CRH (a) in fetal and postnatal development and (b) in the physiological responses during inflammation. More specifically I use the CRH knockout mice developed in our laboratory to study

- (i) The role of glucocorticoid and CRH in fetal lung development,
- (ii) The development of the HPA axis in fetal and neonatal life and the effect of circadian rhythmicity onset, in adrenal gland maturation and adequate stress response,
- (iii) The role of CRH as a proinflammatory factor in modulating cytokine expression, tissue vascularization and wound healing,
- (iv) The role of CRH and CRH-related peptides in stress-induced behaviours.

**Report of Grants:**

1: RO1, NIH/NIHCD

Project: The role of glucocorticoids in pulmonary maturation (Terminated)

PI: Joseph A Majzoub

Role: Investigator

2: NARSAD Young Investigator Award

Title: The role of CRH-related peptides in stress-induced behaviors and anxiety (Terminated)

PI: Maria Venihaki

3: PENED, GSRT

Title: Role of CRH in angiogenesis and wound healing (Active)

PI: Katia Karalis

Role: Investigator

4: KESY, Ministry of Health

Title: Elucidation of the structure and function of type I CRF receptor for designing selective drugs for diagnosis and treatment of tumors expressing this receptor (Active)

PI: George Liapakis

Role: Investigator

5: Hrakleitos II, Ministry of Education

Title: Inflammation-induced analgesia: Role of stress neuropeptides (Active)

PI: Maria Venihaki

6: ELKE: Institutional Support (start up)

Title: Role of CRH in peripheral analgesia (Active)

PI: Maria Venihaki

7: ELKE: Institutional Support (consumables)

Title: Role of Adipose Derived Stem Cells (ADSCs) in Wound Healing Of Lean and Obese mice (Active)

PI: Maria Venihaki

### **Report of teaching**

1995- 96: University of Crete, Medical School, Clinical Chemistry, Teaching Assistant

1999-2005: Training of Ph.D students and post-doctoral fellows, Children's Hospital, Boston MA and IIBEAA, Athens Greece

2005-present: Participation in the teaching of the course of Laboratory Medicine, Medical School, UOC

October 2006-present: Participation in the teaching of the course of Neuroendocrinology in the Graduate program "Brain and Mind"

March 2009: Participation in the teaching of the course of Pathophysiology in the graduate program "Cellular and Genetic Etiology, Diagnosis and Treatment of Human Disease"

### **PART III:**

## Seminars-Talks

June 2001: Corticotropin-Releasing Hormone (CRH) regulates leptin during immune activation. The 83<sup>rd</sup> Annual Endocrine Society Meeting, Denver, Colorado

June 2001: Altered hypothalamic-pituitary-adrenal (HPA) axis regulation in tumor necrosis factor alpha (TNF $\alpha$ )-deficient mice. The 83<sup>rd</sup> annual Endocrine Society Meeting, Denver, Colorado.

September 2001: Role of CRH and CRH-related peptides during stress. Medical School, University of Crete.

November 2001: Corticotropin-releasing hormone regulates IL-6 expression during inflammation. Division of Gastroenterology, BIDC Hospital.

February 2002: Corticotropin-releasing factor family and stress. Division of Gastroenterology, BIDC Hospital.

June 2002: A role for Corticotropin-Releasing Hormone (CRH) in wound healing. The 84th Annual Endocrine Society Meeting, San Francisco, California.

September 2007: Cutaneous Wound Healing. Retreat of the Graduate Program "Cellular and Genetic Etiology, Diagnosis and Treatment of Human Disease", Crete
